

INTRODUCTORY COMMENTS

The specification has been amended on pages 9 and 19 to make the reference numeral changes requested by the Examiner. Copies of pages 9 and 19 marked with the amendments are enclosed herewith.

Claim 1 has been amended to replace “drive motor” by “drive member” which overcomes the antecedent basis rejection.

Claim 9 has been amended to overcome the rejection of Claim 9 on the basis that it has duplicate language.

Claim 12 has been amended to provide a clear antecedent for the coupler set forth in line 7 of Claim 12.

Claim 22 has been amended to correct the dependency of Claim 22. However, Claim 22 should be dependent on Claim 21 rather than as suggested by the Examiner.

Copies of the claims as now presented are enclosed herewith.
